

OPERATION MANUAL

OPERATION MANAL

Specifications

♦Name of Game : GALS PANIC II

Control Panel

: One-sided 2 P

Lever Switch Button

: 2 (8 directions : one) JP and 2P)

♦Edge Connector

: 2 (push button : one each 1P and 2P)

○Monitor

: Vertical Monitor

: JAMMA Standards

Operation Precautions

OEach player uses an I directional lever and button.

Do not connect the second and third buttons.

Unlike Conventional games, the sound is one the important factors for attracting customers. Set the sound volume a little higher (so that players hear the game clearly)

OBe sure to disconnect the power from the enclosure before installing of removing the PC Board.

OUse extreme care not to drop any metal objects such as a nail or clip only the PC Board. This can result in damage to the Board.

When transporting the PC Board, wrap it in aircap or sponge and security. it in a corrugated carton box.
